Budget Guiding Principles

- » Maintaining and enhancing the quality of the student academic experience is the highest priority.
- » Budget reductions and increases should be consistent with the vision and strategic priorities as stated in the campus and system strategic plans.
- » Make the hard decisions about what we will continue to do well in the future with available resources and what we can no longer continue to do and develop a plan to discontinue the latter.

Additional Budget Guidance

- » Lower state reduction from 12.5% to 7.8% (-\$48 to -\$30)
- » Continue focus on access & affordability for Missouri resident undergraduates (3% tuition & fee increase)
- » Reflect market & demand in setting non-resident tuition increases
- » Adjust merit salary & wage increases to target highest human resource needs
- » Maximize other revenue sources
- » Identify proposed actions to close gap

Recommended Action: FY2013 Tuition & Fees

That the schedule of rates for tuition and supplemental fees be approved, effective beginning with the 2012 Summer Session.

- › 1. Tuition, supplemental fees, and eLearning, special program delivery and continuing education fees as shown in the attached schedules and described in the Board materials be approved and become effective beginning with the 2012 summer session.
- › 2. Effective beginning with the 2012 summer session, the Board of Curators revokes and repeals all previous tuition and fee schedules and adopts the attached tuition and other related enrollment fee schedules. The Board finds such action to be necessary for the maintenance and operation of the University.
